

WEJOIN Brushless Swing Barrier WJTYH01

Easier Operation and Stable

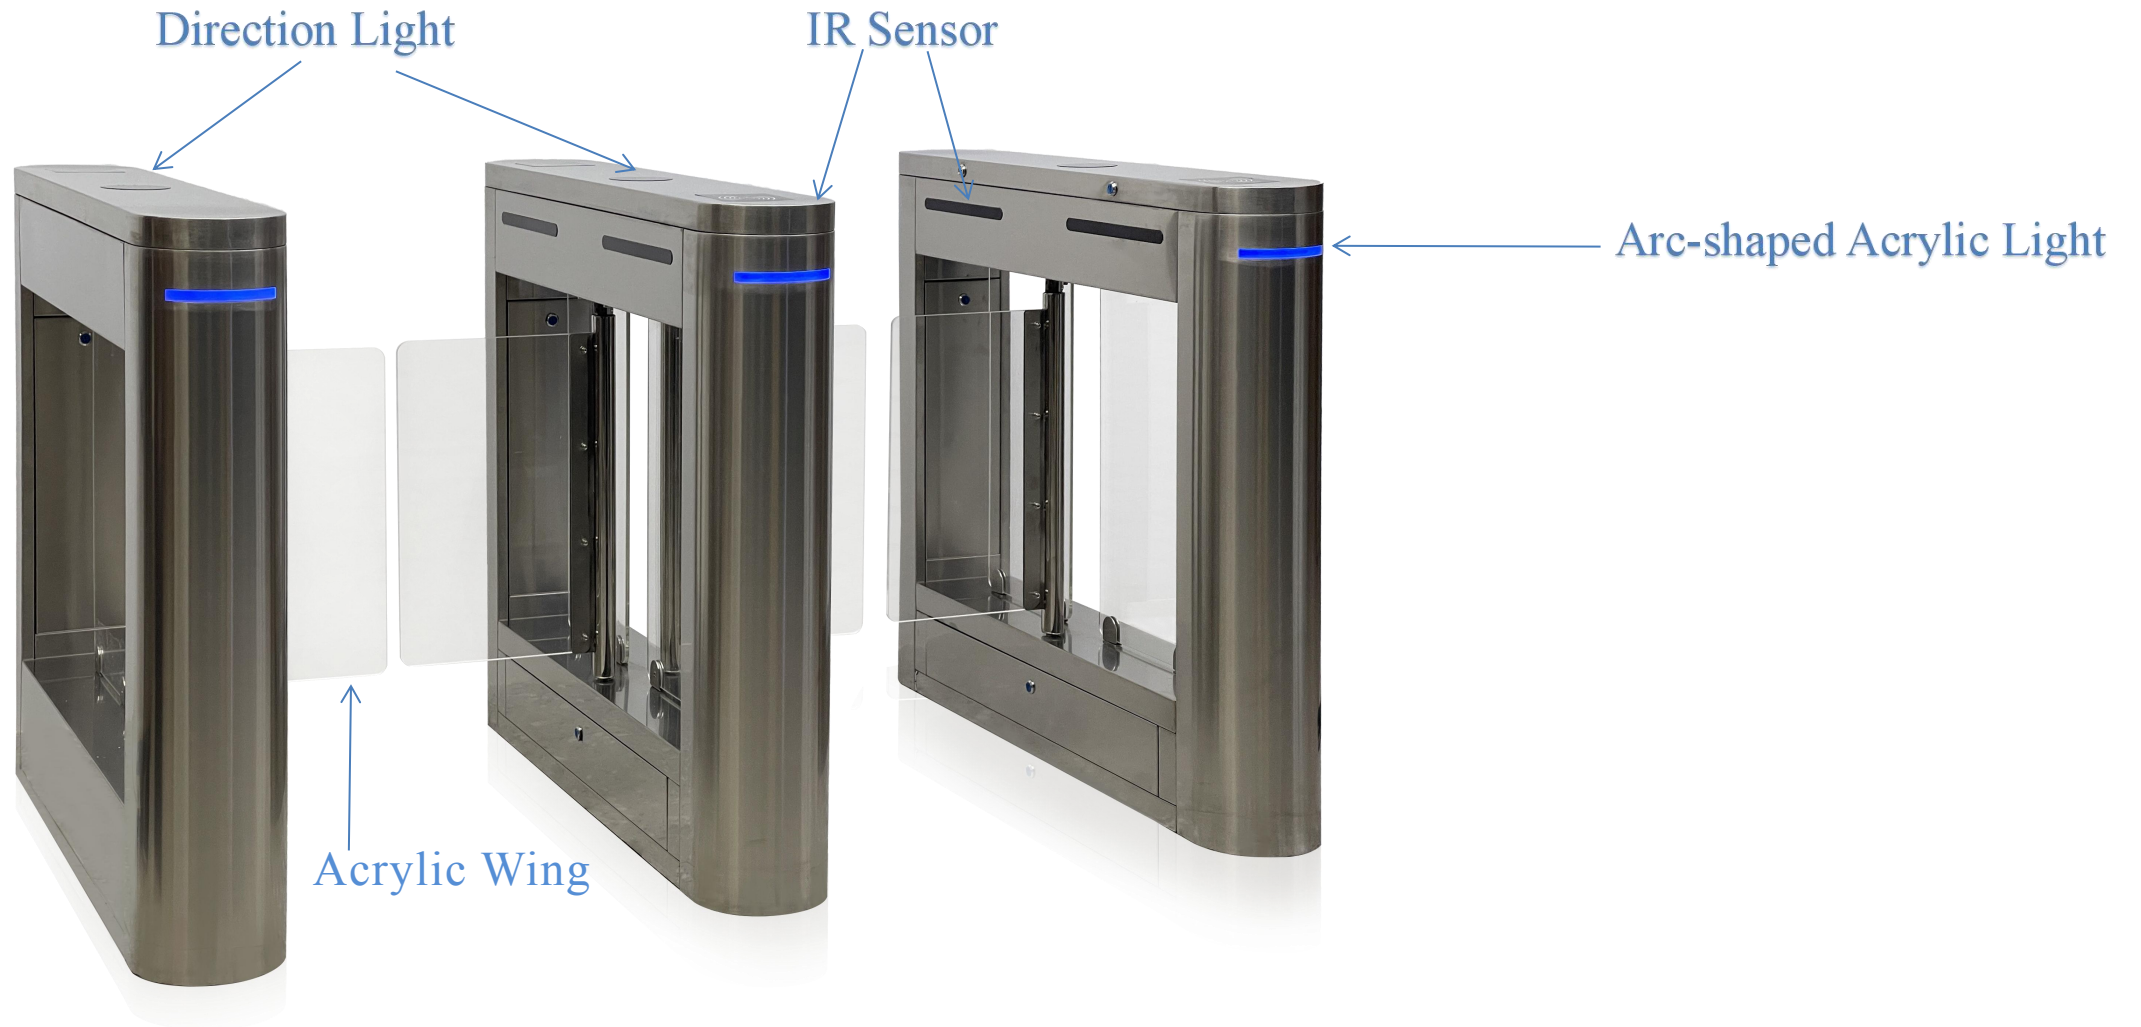

1. Functions & Features

No.	Item	Functions & Features
1	Motor	Self-developed DC24V brushless motor&control system, High efficiency, low energy consumption, low noise, long life, high reliability
2	Control System	Voice function, trumpet optional. left, right, left&right opening adjustable.
3	Physical Anti-pinch Protection	Sensitivity can be adjustable
4	IR Sensor Anti-pinch Protection	Double Protection for safty
5	Operation Speed	0.6sec
6	Operation during Power-off	Opening when power off, DC12V backup battery optional..
7	Motorcade Passing, Counting, Auto-aging Test, Delay Auto-closing, Relay Signal Output, RS485 Communication	Support
8	Illegal intrusion, Trailing passing, Detention, Reverse passing, and IR anti-pinch.	Access logic detection available
9	Warranty Period	12 months for motor and control board

2. Technical Data

Item	Model
	WJTYH01
Running Speed	0.6sec
Cabinet Dimension (W*D*H)	1200*200*980mm
Power Supply Input Voltage	AC220V \pm 10%, AC110V \pm 10%
Motor Voltage	DC24V
Enclosure Rating	IP40
Working Temperature	-20°C ~ +65°C
MTBF	3,000,000 times
Duty Cycle	100%
Traffic Flow Application	30~40 times/ min
Passage Width	Standard 600mm, Max 800mm
Wing Materail	Tempered Glass
Cabinet Materail	Grade 304# staniless steel

3. Product Outlook

Application Examples
