Idol2.0 Instruction

Idol 2.0 is a remote duplicator which can copy most of rolling code and fixed code remote from 300mhz-868mhz. Can store 4 different frequency fixed or rolling code in 4 different buttons. It can even re-generate a new remote. (Table 2.0 for detailed reference)

Technical data:

Working current:24mA± 2mA Frequency: 300mhz 868mhz

Working voltage: 3V or 12V optional Static current:0.4uA± 2uA or 1.4uA± 2Ua optional

Voltage: 2.4V-3.3V or 7-12V optional Working range: 50-90m in the open area

Copy fixed and rolling code remote:

Please kindly note that all the brands in the table 3.0 can be copied by IDOL

Step1: Press together 2nd button and 3rd button for 3 seconds, the LED will be on then go off (about 1 second) till LED will be on again, release the buttons. Which means it s entering into learning mode. Please see fig 1.

Step2: Press 1st button once. Please see fig 2.

Step3: Place the original remote in front of Idol, about 2-3cm distance. Please see fig 3.

Step4: Keep pressing any button of original remote till the Idol LED blink. It means the code has been successfully stored.

Please see fig 4

Please repeat the above steps for the 2nd,3rd,4th buttons of Idol

Attention: BFT, FAAC 433-868 SLH ,KINGGATES, has different operation as bellowing:

Step1: Press 2nd button and 3rd button at the same time(about 3 seconds), the LED will be on then go off (about 1 second) till LED will be on again, release the buttons. Which means it s entering into learning mode. Please see fig1.

Step2: Press 1st button once. Please see fig2.

Step3: Place BFT remote in front of Idol, about 2-3cm distance. Press any BFT button you want to copy (1-3cm distance from Idol) till Idol LED light on, release the buttons. Please see fig3

Step4: Keep pressing the 1st and 2nd button of BFT at the same time (or the rear button), till Idol LED blink, release the buttons. The above successfully copied.

Please repeat the above steps for the 2nd, 3rd, 4th buttons of Idol.

FAAC 433-868 SLH (The original FAAC remote must be MASTER remote)

Attention: verify the programming remote control is a MASTER.

Pressing whatever button, the LED has to emit a double flash rather than to switch on as a fixed light.

Step1: Press together Idol s button 2 and 3 for 3 seconds, the LED will be on then go off (about 1 second) till LED will be on again, release the buttons. Which means it s entering into learning mode. Please see fig1.

Step2: Press 1st button once. Please see fig2

Step3: Place FAAC remote in front of Idol, about 2-3cm distance. Press any FAAC button you want to copy till Idol LED light.

Sept4: Press 1st and 2nd button at FAAC for 2 seconds, till FAAC remote flashes, release the buttons. Then press any button at FAAC till Idol's LED blink. It means you copy successfully.

Please repeat the above steps for the 2nd, 3rd, 4th buttons of Idol.

Notification: For **GENIUS** remote, the best distance for copying is 4-7cm.

Kinggates

Step1: Long press 3rd button, then press 2nd button five times, Idol LED will short flashes, Please see fig1.

Step2: Place Motroline/Kinggates remote in front of Idol, about 2-3cm distance. Press any original button you want to copy (1-3cm distance from Idol) till Idol LED short flashes, release the buttons. Please see fig2

Step3: Press the IDOL 1st button once time, LED keep on. It's meaning learning code successfully .Please see fig3

Please repeat the above steps for the 2nd,3rd,4th buttons of Idol.

Remotely program function:

Please kindly note that all the brands in the table 1.0 can be program into original receiver

Get close to the receiver and press together Idol buttons 1 and 3 for 3 seconds, the LED will be on then go off (about 1 second) till LED will be on again, release the buttons. Which means it's entering into remotely program mode. Then press any Idols button that you already copied once, to indicate that remotely program procedure has started. After 8 seconds, wait the activation of the receiver (gate opening, lights starting, etc..) The remote control has been memorized.

Attention: If the receiver doesn t work, the "remote program function" maybe disarmed, if so please operate it manually. Please kindly note that fixed code remote after copying, Idol can act as the original remote and do not need to program with receiver.

Table 1.0

Re-generate function:

If customers buy an Idol remote, but they lost their original remote, they can re-generate an original remote.

Step1: Press together 1st button and 4th button for 3 seconds, the LED will be on then go off (about 1 second) till LED will be on again, release the buttons. Which means it s entering into Re-generate mode. Please see the fig1

Step2: Press buttons to choose the brands as table 2.0. For example, if you choose BFT MITTO brand, press 1st button once, then LFD flashes once

Step3: Confirm the brand. Press 3rd and 4th button at the same time. Till LED blink, release the buttons. Now the Idol remote is functioning a new BFT MITTO remote. Please see fig2.

Note1. If you are using Idol to regenerate a FAAC 4 buttons remote, then re-generate a BFT 2 buttons remote, the in the Idol remote, 1st and 2nd button is BFT code, 3rd and 4th button is FAAC code.

Note2. If you press 1 time, the Idol's LED flashes once; If you press 2 times, the Idol's LED flashes twice and so on.

g1
