

GeneProof Universal Internal Control

Simplify your laboratory workflow

UNIVERSALITY

- Many specimen types
- Manual/automated extraction
- Compatible with microbiological GeneProof PCR kits

EASY-TO-USE CONCEPT

- Only 1 universal internal control for many specimen types and different tests

FALSE NEGATIVE RESULTS PREVENTION

- Internal control solution enables precise false negative results control

CONTROL OF THE WHOLE DIAGNOSTIC PROCESS

- DNA extraction and PCR amplification efficiency
- RNA extraction, reverse transcription and PCR amplification efficiency

ORDER INFORMATION

REF	PACKAGE
UNIC/GP/050	min. 100 NA extractions
